TC 1700

- Sub C1
1. A toner composition comprising:
- a) a primary resin having a polymeric structure comprising at least one distinct repeating structural unit;
 - b) at least one wax release agent having a polymeric structure comprising at least one distinct repeating structural unit; and
 - c) a secondary resin at least partially compatibilizing said primary primary resin and said wax comprising a random copolymer, wherein the structure of said random copolymer has at least one repeating structural unit compatible with at least one distinct repeating structural unit of said primary resin and at least one other repeating structural unit which is compatible with at least one distinct repeating structural unit of said wax release agent, at least one of said repeating structural units having a monomer
